**Informační číselník SZP ČR** je pomůcka pro předepisující lékaře, která řadí léčivé přípravky a PZLÚ (dále jen LP) podle výše úhradového ekvivalentu. Umožňuje tak lékařům se rychle orientovat v rámci jednotlivých účinných látek a zjistit, které léčivé přípravky jsou z pohledu zdravotních pojišťoven nákladově nejméně náročné.

Informační číselník uvádí LP hrazené z prostředků veřejného zdravotního pojištění dle Seznamu hrazených léčivých přípravků a potravin pro zvláštní lékařské účely (Seznam cen a úhrad, SCAU) vydaného Státním ústavem pro kontrolu léčiv (SÚKL) a zařazené v číselníku HVLP SZP ČR v příslušném měsíci.

Výjimkami, které se v Informačním číselníku neuvádějí, jsou:

- LP určené výhradně pro nemocniční použití (LP s původním LIM1 = „H“),
- LP, které jsou uvedeny v číselnících HVLP posledních 12 měsíců, avšak v těchto dvanácti měsících nemají spotřeby.
- LP, u kterých není ve SCAU uvedena cena a nelze tudíž vypočítat doplatek

Léčivé přípravky jsou v Informačním číselníku řazeny podle:

- ATC léčivé látky
- cesty podání
- síly (množství léčivé látky v jednotce hmotnosti, objemu nebo lékové formy)
- úhradového ekvivalentu, tj. úhrady za obvyklou denní terapeutickou dávku (ODTD) nebo definovanou denní dávku (DDD) nebo jinak definované množství léčivé látky, vypočtené jako podíl úhrady za balení (UHR1) a počtu definovaných dávek v balení příslušného LP; úhrada je snížena na úroveň konečné ceny (MFC) v případě, že je MFC nižší
- LP se stejnou úhradou za ekvivalent jsou řazeny dle maximálního doplatku za ekvivalent vzestupně, doplatek je vypočtený jako podíl doplatku za balení a počtu definovaných dávek v balení příslušného LP
- LP, u kterých je shodná i výše tohoto doplatku, jsou řazeny abecedně

Doplňující informace uváděné u jednotlivých LP:

- **LP, které jsou uvedeny v Pozitivním listu SZP ČR, jsou označeny logem SZP ČR a zvýrazněny zeleným podbarvením řádku**
- pro informaci je u jednotlivých LP uváděna i maximální výše doplatku za balení
- LP, které k datu zpracování Informačního číselníku nebyly účtovány zdravotním pojišťovnám (nově zařazené LP či LP, u nichž končí dodávky), jsou označeny -⊗

Pro PZLÚ, které mají všechny ATC skupinu V06XX, je použito základní třídění podle referenčních skupin a dále abecední řazení. PZLÚ nezařazené do žádné referenční skupiny jsou uvedeny souhrnně ve fiktivních referenčních skupinách 107/90, 108/90, 109/90.

V zájmu zkvalitnění informací poskytovaných prostřednictvím Informačního číselníku žádáme smluvní zdravotnická zařízení i odbornou veřejnost o případné zasílání připomínek na [leky@szpocr.cz](mailto:leky@szpocr.cz) a předem za ně děkujeme.
